

Playback Recorded Footage

1. Hover mouse at the top of the screen until menu bar appears.
2. Click Menu.
3. Enter username and password if prompted. Do not write your password on this document.
4. Click Playback. 
5. Click Normal.
6. At the top right of the screen, select the cameras you wish to view playback on.
7. At the bottom of the screen, double click on the date you wish to view. (Dates shaded blue have recorded footage)
8. Select the time to be viewed by clicking the desired point along the time bar. Times with a purple line shown above them have recorded footage. It is possible to zoom in and out of the time bar using the arrows buttons on the right hand side.

9. Use the playback controls to search through recorded footage.

10. If you wish to do a backup, please continue as described overleaf. If not, right click anywhere on the screen to leave playback mode.
11. If you need help contact your account manager on 01-538 3333
